

Case Study

# Strategic Advisory for Technology & Risk

THINK. INSPIRE. FLOURISH

## About the Client

Uno Minda is a known giant in Automobile Components Manufacturing industry with revenue of more than INR 5000 Cr. It manufactures diverse auto components for Indian and International OEMs.

## Client Requirement

Governance and Compliance are always the main priorities of a CIO and his organization. Keeping true with this ideology, Minda Industries entered into a Strategic Engagement with us for couple of IT Transformation projects.

## CREATING VALUES Approach

CREATING VALUES, through its vast experience in IT Advisory and Strategy projects with clients from across industries, was able to deliver desired Business Value to Minda Industries. We have developed effective Assessment structures for multiple IT frameworks. Our biggest differentiating factor is the level of customization we bring to the table.

The List of deliveries included, the AS-IS and TO-BE of the frameworks in consideration, review of major contracts, sharing advisory for future course of action, conducting boot camp for the IT team for better understanding of the current landscape and Do's & Don'ts for effective services management.

Our Differentiators:

**Effective & Highly Customizable Assessment Structures**

“

Accept the challenges so that  
you can feel the exhilaration  
of victory

George S. Patton

## Infrastructure Landscape

Uno Minda Group IT is a large IT ecosystem with presence across multiple locations. With a Huge employee base and diversified deployed Computing Infra, Project execution was complex with limited resources.

Despite a widely disparate Infrastructure, the team of CREATING VALUES was able to successfully execute the project, only with the assistance extended by the Group CIO, Mr. Parna Ghosh, the Group GRC Lead, Mr. Sanjeev Lamba and his team.

## \*Parna Ghosh, CIO

“We had finalized CREATING VALUES for their technical prowess. They certainly didn’t leave any stone unturned to complete the project, despite all the infrastructure challenges of our environment. They worked closely with my team to clear all hurdles, their relationship management leaves a good mark.”

\*Disclaimer: Views expressed above are personal.
